INDEX TO VOLUME 57

Abundance of the rare gases in the earth and in the universe, The (Hans E. Suess), 600
Acta Geologica Taiwanica, vol. 1, no. 1. Review by Ching Chang Woo, 437
Africa, South, Some remarkable wind-faceted pebbles from near the mouth of the Umhlangakulu River, southern Natal (Lester King), 413
Age correlation, Leaching of carbonates in glacial drift and loess as a basis for (Richard Foster Flint), 297
Ahlmann, Hans W:son. Glaciological research on the north Atlantic coast. Review by R. P. Sharp, 432
(Ain), France, Rock-fragment slopes caused by past frost action in the Jura Mountains (Sheldon Judson), 137
Alaska, The frost-moved rubbles of Jumbo Dome and their significance in the Pleistocene chronology of (Clyde Wahrhaftig), 216
northern, Oriented lakes of (Robert F. Black and William L. Barksdale), 105
Thaw lakes and thaw sinks in the Imuruk Lake area, Seward Peninsula (David M. Hopkins), 119
Albite-water system in the gravitational field: a comment (Hans Ramberg), 429
Amphibolite facies area (Hans Ramberg), 48
Anatexis, zone of (R. Perrin and M. Roubault), 362
Ancient Arctica: remarks and supplement (Wolf Maync), 314
reply to remarks (A. J. Eardley), 319
Ancient volcanoes of Oregon, The. By Howel Williams. Review by F. M. Byers, Jr., 324
Antarctic ice specimens, The preservation of: a discussion (Henri Bader), 427
a reply (Arthur David Howard), 428
Antevs, Ernst. Review of: Boden- und Klimaverhältnisse in Mittel- und Westeuropa während der Würmeiszeit. By Hans Poser, 621
Review of: Die morphologischen Wirkungen des Eiszeitklimas im gletscherfreien Gebiet. By Julius Büdel, 235
Review of: Strukturböden, Solifluktion und Frostkilmate der Erde. By Carl Troll, 232
Arctic Basin, Topography and sediments of the (K. O. Emery), 512
Arctica, Ancient: remarks and supplement (Wolf Maync), 314
reply to remarks (A. J. Eardley), 319
Armstrong, H. S. Review of: Geological map of Manitoba, Map 850A, 323
Review of: Geological map of Saskatchewan, Map 895A, 321
Review of: Mineral map of Saskatchewan, Map 896A, 323
Arno Valley, stratigraphy of (Hallam L. Movius, Jr.), 385
Ash, Great Plains Pleistocene volcanic, Source area of (Ada Swineford), 307
Australia, A review of tectonic relief in (C. A. Cotton), 280

Bader, Henri. *The preservation of Antarctic ice specimens: a discussion*, 427
Bailey, Sturges W. *Liquid inclusions in granite thermometry*, 304
Balk, Robert. Review of: Emanuel Kayser's Abriss der Geologie. Vol. 2: Historische Geologie. By Roland Brinkmann, 441
Review of: The "Stratigraph," 327
Review of: Technische Gesteinskunde. By A. von Moos and F. de Quervain, 327
Barksdale, William L., and Robert F. Black. *Oriented lakes of northern Alaska*, 105
Barth, Tom. F. W. *The distribution of oxygen in the lithosphere: a reply*, 423
Frequency distribution of the minerals in two petrographic provinces, 55
The use of oxygen as a reference substance in petrographic calculations: a supplement and a reply, 425
Review of: Festschrift Paul Niggli, zu seinen 60. Geburtstag, 326
Review of: Geological explorations in western Tibet. By E. Norin, 326
Review of: Gesteine und Minerallagerstätten. Vol. 1: Allgemeine Lehre von den Gesteinen und Minerallagerstätten. By P. Niggli, 325
Big Horn Mountains, Wyoming, Pleistocene ventifacts east of the (Robert P. Sharp), 175
Black Cave (J Harlen Bretz), 457
Black Hills, South Dakota, Petrogenesis of perthite pegmatites in the (Riad A. Higazy), 555
Black, Robert F., and William L. Barksdale. *Oriented lakes of northern Alaska*, 105
Boden- und Klimaverhältnisse in Mittel- und Westeuropa während der Würmeiszeit. By Hans Poser. Review by Ernst Antevs, 621
Bosteck, H. S. Physiography of the Canadian Cordillera, with special reference to the area north of the fifty-fifth parallel. Review by Leland Horberg, 445
Boston Harbor, Recent shoreline changes at Shirley Gut (Robert L. Nichols), 85
Botanical nomenclature, International rules of. Compiled by H. W. Camp, H. W. Rickett, and C. A. Weatherby. Review by E. C. Olson, 442
Bretz, J Harlen. *Carlsbad Caverns and other caves of the Guadalupe block, New Mexico*, 447

and Leland Horberg. *Caliche in southeastern New Mexico*, 491
and Leland Horberg. *The Ogallala formation west of the Llano Extacado*, 477
Brinkmann, Roland. Emanuel Kayser's Abriss der Geologie. Vol. 2: Historische Geologie. Review by Robert Balk, 441
Briquetted coal, Naturally, from a bed in western Pennsylvania (James M. Schopf), 79
Bryan, Kirk. *The geologic implications of cryopedology*, 101
Bryan, W. H. The geological approach to the study of soils. Review by C. A. Cotton, 98
Büdel, Julius. Die morphologischen Wirkungen des Eiszeitklimas im gletscherfreien Gebiet. Review by Ernst Antevs, 235
Bullen, K. E. An introduction to the theory of seismology. Review by M. King Hubbert, 435
Bureau County, Illinois, A possible fossil ice wedge in (Leland Horberg), 132
Byers, F. M., Jr. Review of: The ancient volcanoes of Oregon. By Howel Williams, 324

Cady, G. H. Review of: Die Metamorphose der Kohle und ihr Einfluss auf die sichtbaren derselben. By W. Petrascheck, 551
Cailleux, André, Études de cryopédologie. Review by Leland Horberg, 236
Caliche, in southeastern New Mexico (J Harlen Bretz and Leland Horberg), 491
age and climatic implications, 509
alteration of, 504
lithologic description of, 502
origin of, 507
profile, 493
California Tertiary reservoir sands, Cementation of some (Charles M. Gilbert), 1
Camp, H. W., H. W. Rickett, and C. A. Weatherby (comps.). International rules of botanical nomenclature. Review by E. C. Olson, 442
Carbonates, Leaching of, in glacial drift and loess as a basis for age correlation (Richard Foster Flint), 297
Carlsbad Caverns area, New Mexico, Geomorphic history of the (Leland Horberg), 464
Carlsbad Caverns and other caves of the Guadalupe block, New Mexico (J Harlen Bretz), 447
Carolina bays, comparison of the oriented lakes of northern Alaska with (Robert F. Black and William L. Barksdale), 115
Cavern development, time of, in Guadalupe Range (Leland Horberg), 475
Caves, Carlsbad Caverns and other, of the Guadalupe block, New Mexico (J Harlen Bretz), 447
Cellular structures in glass as related to structures in lava (E. F. Osborn), 73
Cementation of some California Tertiary reservoir sands (Charles M. Gilbert), 1
Cementing agents, Sandstone types: their abundance and (Sefton L. Tallman), 582
Chambers's mineralogical dictionary. Review by D. J. Fisher, 99
Chayes, F. *On ratio correlation in petrography*, 239
Chemical stability, Radial diffusion and, in the gravitational field: a discussion (Jean Verhoogen), 93
a reply (Hans Ramberg), 95
Chronology, Pleistocene, of Alaska, The frost-moved rubbles of Jumbo Dome and their significance in the (Clyde Wahrhaftig), 216
Classification, The facies, of rocks: a clue to the origin of quartzo-feldspathic massifs and veins (Hans Ramberg), 18
Climate, of the Arctic Coastal Plain (Robert F. Black and William L. Barksdale), 107
Climatic accidents in landscape making. By C. A. Cotton. Review by Leland Horberg, 238
Climatic implications of caliche (J Harlen Bretz and Leland Horberg), 509
Coal, Naturally briquetted, from a bed in western Pennsylvania (James M. Schopf), 79
Conybeare, C. E. B. *Stylolites in pre-Cambrian quartzite*, 83
Correlation, age, Leaching of carbonates in glacial drift and loess as a basis for (Richard Foster Flint), 297
On ratio, in petrography (F. Chayes), 239
Cotton, C. A. Climatic accidents in landscape making. Review by Leland Horberg, 238
A review of tectonic relief in Australia, 280
Review of: The geological approach to the study of soils. By W. H. Bryan, 98
Review of: Landscape study in South Africa. By Lester C. King, 236
Cottonwood Cave (J Harlen Bretz), 456
Cretaceous and Tertiary subsurface geology: the stratigraphy, paleontology, and sedimentology of three deep test wells on the eastern shore of Maryland. Review by W. C. Krumbein, 620
Crustal movement in the Great Lakes area: a discussion (William Herbert Hobbs), 312
Cryopedology, The geologic implications of (Kirk Bryan), 101
Crystallization, evolution of (R. Perrin and M. Roubault), 370

Differentiation (R. Perrin and M. Roubault), 360
Diffusion, Radial, and chemical stability in the gravitational field: a discussion (Jean Verhoogen), 93
a reply (Hans Ramberg), 95
Diffusion and reactions in the solid state, evidence of origin of granite by (R. Perrin and M. Roubault), 364
Distribution of oxygen in the lithosphere, The, and Oxygen in rocks: a basis for petrographic calculations: a discussion (Ivan Th. Rosenqvist), 420
a reply (Tom. F. W. Barth), 423
comments on Barth's reply (Ivan Th. Rosenqvist), 425
Drainage, of the Arctic Coastal Plain (Robert F. Black and William L. Barksdale), 106

evolution, in Guadalupe Range (Leland Horberg), 474
Drift, glacial, and loess, Leaching of carbonates in, as a basis for age correlation (Richard Foster Flint), 297
Driftless Area of southern Wisconsin, Periglacial features in the (H. T. U. Smith), 196

Eardley, A. J. *Ancient Arctica: reply to remarks*, 319
Review of: Symposium of information relative to uses of aerial photographs by geologists. Compiled by H. T. U. Smith, 439
Earth and in the universe, The abundance of the rare gases in the (Hans E. Suess), 600
Earthquake epicenters, in Arctic region (K. O. Emery), 515
Edelgase, Die Häufigkeit der, auf der Erde und im Kosmos (Hans E. Suess), 600
Emery, K. O. *Topography and sediments of the Arctic Basin*, 512
Emplacement of granite (R. Perrin and M. Roubault), 361
Enstatite-orthoferrosilite series (Th. G. Sahama and D. R. Torgeson), 258
Epidote-amphibolite facies area (Hans Ramberg), 49
Equating of volume and weight, Replacement and the (John Ridge), 522
Erde und im Kosmos, Die Häufigkeit der Edelgase auf der (Hans E. Suess), 600
Études de cryopédologie. By André Cailleux. Review by Leland Horberg, 236
Europe, southern and southwestern, Villafranchian stratigraphy in (Hallam L. Movius, Jr.), 380

Facies classification of rocks, The: a clue to the origin of quartzo-feldspathic massifs and veins (Hans Ramberg), 18
Feldspars, Recent results of investigations on the (Alexander Köhler), 592
Festschrift Paul Niggli, zu seinen 60. Geburtstag. Review by Tom. F. W. Barth, 326
Fisher, D. J. Review of: Chambers's mineralogical dictionary, 99
Flint, Richard Foster. *Leaching of carbonates in glacial drift and loess as a basis for age correlation*, 297
Chester R. Longwell, and Adolph Knopf. Physical geology. Review by Lou Williams Page, 623
Florida landslide, A (Richard H. Jordan), 418
Forsterite-fayalite series (Th. G. Sahama and D. R. Torgeson), 256
Fossil ice wedge, A possible, in Bureau County, Illinois (Leland Horberg), 132
France, Rock-fragment slopes caused by past frost action in the Jura Mountains (Ain) (Sheldon Judson), 137
stratigraphy of Saône Basin (Hallam L. Movius, Jr.), 393
Frequency distribution of the minerals in two petrographic provinces (Tom. F. W. Barth), 55
Friedman, I. I. *A proposed method for the measurement of geologic temperatures*, 618
Frost action, intensive, the study of (Kirk Bryan), 101
past, Rock-fragment slopes caused by, in the Jura Mountains (Ain), France (Sheldon Judson), 137
Periglacial features in the Driftless Area of southern Wisconsin (H. T. U. Smith), 196
Some periglacial features in central Montana (J. P. Schafer), 154
Stone nets, stone stripes, and soil stripes in the Wind River Mountains, Wyoming (Gerald M. Richmond), 143
Frost-moved rubbles of Jumbo Dome, The, and their significance in the Pleistocene chronology of Alaska (Clyde Wahrhaftig), 216
Frost riving and soil formation (David M. Hopkins), 120
Fundamentals of physical science. By Konrad Bates Krauskopf. Review by Thornton Page, 438

Geikielite and ilmenite, stability relation of (Th. G. Sahama and D. R. Torgeson), 260
Geochemical researches in Japan (Kazuo Yamasaki), 414
Geochemistry. *Albite-water system in the gravitational field: a comment* (Hans Ramberg), 429
The distribution of oxygen in the lithosphere, and, Oxygen in rocks: a basis for petrographic calculations: a discussion (Ivan Th. Rosenqvist), 420
a reply (Tom. F. W. Barth), 423
comments on Barth's reply (Ivan Th. Rosenqvist), 425
The facies classification of rocks: a clue to the origin of quartzo-feldspathic massifs and veins (Hans Ramberg), 18
Liquid inclusions in granite thermometry (Sturges W. Bailey), 304
Oxidation and reduction in (Brian Mason), 62
Radial diffusion and chemical stability in the gravitational field: a discussion (Jean Verhoogen), 93
a reply (Hans Ramberg), 95
Replacement and the equating of volume and weight (John Ridge), 522
Some examples of the application of thermochemistry to petrology (Th. G. Sahama and D. R. Torgeson), 255
of thallium, A note on the (Kalervo Rankama), 608
The use of oxygen as a reference substance in petrographic calculations: a supplement and a reply (Tom. F. W. Barth), 425
Geologic implications of cryopedology, The (Kirk Bryan), 101
Geologic temperatures, A proposed method for the measurement of (I. I. Friedman), 618
Geological approach to the study of soils, The. By W. H. Bryan. Review by C. A. Cotton, 98

Geological explorations in western Tibet. By E. Norin. Review by Tom. F. W. Barth, 326
Geological map of Manitoba, Map 850A. Review by H. S. Armstrong, 323
Geological map of the Province of Ontario: Map no. 1946-3. Compiled by J. Satterly. Review by F. J. Pettijohn, 321
Geological map of Saskatchewan, Map 895A. Review by H. S. Armstrong, 321
Geology of the Arctic Coastal Plain (Robert F. Black and William L. Barksdale), 108
Geomorphic history of the Carlsbad Caverns area, New Mexico (Leland Horberg), 464
Geomorphology. *A review of tectonic relief in Australia* (C. A. Cotton), 280
Geophysics. *Isostasy—extended* (Ross Gunn), 263
Gesteine und Minerallagerstätten. Vol. 1: Allgemeine Lehre von den Gesteinen und Mineral-lagerstätten. By P. Niggli. Review by Tom. F. W. Barth, 325
Gilbert, Charles M. *Cementation of some California Tertiary reservoir sands*, 1
Glacial drift and loess, Leaching of carbonates in, as a basis for age correlation (Richard Foster Flint), 297
Glacial erosion in Arctic region (K. O. Emery), 514
Glaciation in Jumbo Dome area (Clyde Wahrhaftig), 219
Glaciological research on the north Atlantic coast. By Hans W:son Ahlmann. Review by R. P. Sharp, 432
Glass, Cellular structures in, as related to structures in lava (E. F. Osborn), 73
Granite problem, On the (R. Perrin and M. Roubault), 357
Granite thermometry, Liquid inclusions in (Sturges W. Bailey), 304
Granitization, rate of (R. Perrin and M. Roubault), 370
Granulite facies area (Hans Ramberg), 35
Gravitational field, Albite-water system in the: a comment (Hans Ramberg), 429
Radial diffusion and chemical stability in the: a discussion (Jean Verhoogen), 93
a reply (Hans Ramberg), 95
Great Lakes area, Crustal movement in the: a discussion (William Herbert Hobbs), 312
Great Plains Pleistocene volcanic ash, Source area of (Ada Swineford), 307
Greenland. *Ancient Arctica: remarks and supplement* (Wolf Maync), 314
Guadalupe block, New Mexico, Carlsbad Caverns and other caves of the (J Harlen Bretz), 447
Guadalupe Range. *Geomorphic history of the Carlsbad Caverns area, New Mexico* (Leland Horberg), 464
Gunn, Ross. *Isostasy—extended*, 263

Häufigkeit der Edelgase auf der Erde und im Kosmos, Die (Hans E. Suess), 600
Hagner, A. F. Review of: Mineral resources of Colorado. Prepared under supervision of John W. Vanderwilt, 439
Heat conduction, with engineering and geological applications. By L. R. Ingersoll, O. J. Zobel, and A. C. Ingersoll. Review by T. S. Lovering, 327
Hidden Cave (J Harlen Bretz), 457
Higazy, Riad A. *Petrogenesis of perthite pegmatites in the Black Hills, South Dakota*, 555
Historical geology. By Russell C. Hussey. Review by Robert L. Miller, 437
History, Geomorphic, of the Carlsbad Caverns area, New Mexico (Leland Horberg), 464
Hobbs, William Herbert. *Crustal movement in the Great Lakes area: a discussion*, 312
Hohlt, Richard B. The nature and origin of limestone porosity. Review by F. A. Johnson, Jr., 441
Hopkins, David M. *Thaw lakes and thaw sinks in the Imuruk Lake area, Seward Peninsula, Alaska*, 119
Horberg, Leland *Geomorphic history of the Carlsbad Caverns area, New Mexico*, 464
A possible fossil ice wedge in Bureau County, Illinois, 132
Review of: Climatic accidents in landscape making. By C. A. Cotton, 238
Review of: Études de cryopédologie. By André Cailleux, 236
Review of: Physiography of the Canadian Cordillera, with special reference to the area north of the fifty-fifth parallel. By H. S. Bosteck, 445
and J Harlen Bretz. *Caliche in southeastern New Mexico*, 491
and J Harlen Bretz. *The Ogallala formation west of the Llano Estacado*, 477
Howard, Arthur David. *The preservation of Antarctic ice specimens: a reply*, 428
Hubbert, M. King. Review of: An introduction to the theory of seismology. By K. E. Bullen, 435
Hussey, Russell C. Historical geology. Review by Robert L. Miller, 437

Ice specimens, Antarctic, The preservation of: a discussion (Henri Bader), 427
a reply (Arthur David Howard), 428
Ice wedge, A possible fossil, in Bureau County, Illinois (Leland Horberg), 132
Illinois, A possible fossil ice wedge in Bureau County (Leland Horberg), 132
Trivoli sandstone of Williamson County (Raymond Siever), 614
Ilmenite and geikielite, stability relation of (Th. G. Sahama and D. R. Torgeson), 260
Imuruk Lake area, Seward Peninsula, Alaska, Thaw lakes and thaw sinks in the (David M. Hopkins), 119
Inclusions, Liquid, in granite thermometry (Sturges W. Bailey), 304
liquid, Structural petrology of planes of (O. F. Tuttle), 331

Ingersoll, A. C., L. R. Ingersoll, and O. J. Zobel. Heat conduction, with engineering and geological applications. Review by T. S. Lovering, 327
Ingersoll, L. R., O. J. Zobel, and A. C. Ingersoll. Heat conduction, with engineering and geological applications. Review by T. S. Lovering, 327
Intra-Pacific rock province (Tom. F. W. Barth), 57
Investigations on the feldspars, Recent results of (Alexander Köhler), 592
Involutions, description and origin (J. P. Schafer), 156, 160
Iron resources of California, The. Review by Charles F. Park, Jr., 626
Isobary (Ross Gunn), 268
Isostasy—extended (Ross Gunn), 263
Italy, southern, stratigraphy in (Hallam L. Movius, Jr.), 389

Japan, Geochemical researches in (Kazuo Yamasaki), 414
Johnson, F. A., Jr. Review of: The nature and origin of limestone porosity. By Richard B. Hohlt, 441
Jordan, Richard H. *A Florida landslide*, 418
Judson, Sheldon. *Rock-fragment slopes caused by past frost action in the Jura Mountains (Ain), France*, 137
Jumbo Dome, The frost-moved rubbles of, and their significance in the Pleistocene chronology of Alaska (Clyde Wahrhaftig,) 216
Jura Mountains (Ain), France, Rock-fragment slopes caused by past frost action in the (Sheldon Judson), 137

Kayser's, Emanuel, Abriss der Geologie. Vol. 2: Historische Geologie. By Roland Brinkmann. Review by Robert Balk, 441
King, Lester C. Landscape study in South Africa. Review by C. A. Cotton, 236
Some remarkable wind-faceted pebbles from near the mouth of the Umhlangakulu River, southern Natal, South Africa, 413
Knopf, Adolph, Chester R. Longwell, and Richard F. Flint. Physical geology. Review by Lou Williams Page, 623
Köhler, Alexander. *Recent results of investigations on the feldspars*, 592
Kosmos, Die Häufigkeit der Edelgase auf der Erde und im (Hans E. Suess), 600
Krauskopf, Konrad Bates. Fundamentals of physical science. Review by Thornton Page, 438

(J. P. Schafer), 171
Periglacial features in central Montana, Some (J. P. Schafer), 154
Periglacial features in the Driftless Area of southern Wisconsin (H. T. U. Smith), 196
Permafrost. *Oriented lakes of northern Alaska* (Robert F. Black and William L. Barksdale), 105
A possible fossil ice wedge in Bureau County, Illi-

nois (Leland Horberg), 132
Thaw lakes and thaw sinks in the Imuruk Lake area, Seward Peninsula, Alaska (David M. Hopkins), 119
Permo-Triassic formations, The. By R. L. Sherlock. Review by E. C. Olson, 443
Perrin, R., and M. Roubault. *On the granite problem*, 357
Perthite pegmatites in the Black Hills, South Dakota, Petrogenesis of (Riad A. Higazy), 555
Petrascheck, W. Die Metamorphose der Kohle und ihr Einfluss auf die sichtbaren derselben. Review by G. H. Cady, 451
Petrogenesis of perthite pegmatites in the Black Hills, South Dakota (Riad A. Higazy), 555
Petrographic calculations, Oxygen in rocks: a basis for, and, The distribution of oxygen in the lithosphere: a discussion (Ivan Th. Rosenqvist), 420
The use of oxygen as a reference substance in: a supplement and a reply (Tom. F. W. Barth), 425
Petrographic provinces, two, Frequency distribution of the minerals in (Tom. F. W. Barth), 55
Petrography, of Pearlette tuff and pumice (Ada Swineford), 309
On ratio correlation in (F. Chayes), 239
Rocks of the Mid-Atlantic Ridge (S. J. Shand), 89
Petroleum Technology, Journal of, vol. 1, no. 1. Review by F. J. Pettijohn, 442
Petrology. *Cementation of some California Tertiary reservoir sands* (Charles M. Gilbert), 1
The facies classification of rocks: a clue to the origin of quartzo-feldspathic massifs and veins (Hans Ramberg), 18
Recent results of investigations on the feldspars (Alexander Köhler), 592
Some examples of the application of thermochemistry to (Th. G. Sahama and D. R. Torgeson), 255
Structural, of planes of liquid inclusions (O. F. Tuttle), 331
Pettijohn, F. J. Review of: Geological map of the Province of Ontario: Map no. 1946-3. Compiled by J. Satterly, 321
Review of: Journal of Petroleum Technology, vol. 1, no. 1, 442
Physical geology. By Chester R. Longwell, Adolph Knopf, and Richard F. Flint. Review by Lou Williams Page, 623
Physiography of the Canadian Cordillera, with special reference to the area north of the fifty-fifth parallel. By H. S. Bosteck. Review by Leland Horberg, 445
Piedmont plains and terraces in Guadalupe Range (Leland Horberg), 470
Planes of liquid inclusions, Structural petrology of (O. F. Tuttle), 331
Pleistocene chronology of Alaska, The frost-moved rubbles of Jumbo Dome and their significance in the (Clyde Wahrhaftig), 216
Pleistocene ventifacts east of the Big Horn Mountains, Wyoming (Robert P. Sharp), 175
Pleistocene volcanic ash, Great Plains, Source area of (Ada Swineford), 307
Pliocene. *The Ogallala formation west of the Llano Estacado* (J Harlen Bretz and Leland Horberg), 477
Po Valley, stratigraphy of (Hallam L. Movius, Jr.), 381
Poser, Hans. Boden- und Klimaverhältnisse in Mittel- und Westeuropa während der Würmeiszeit. Review by Ernst Antevs, 621
Pre-Cambrian quartzite, Stylolites in (C. E. B. Conybeare), 83
Preservation of Antarctic ice specimens, The: a discussion (Henri Bader), 427
a reply (Arthur David Howard), 428
Puy-en-Velay Basin, stratigraphy of (Hallam L. Movius, Jr.), 400

Quartzite, pre-Cambrian, Stylolites in (C. E. B. Conybeare), 83
Quartzo-feldspathic massifs and veins, The facies classification of rocks: a clue to the origin of (Hans Ramberg), 18
Quartzo-feldspathic rocks, position in the mineral facies scheme (Hans Ramberg), 47
Queensland (C. A. Cotton), 287
Quervain, F. de, and A. von Moos. Technische Gesteinskunde. Review by Robert Balk, 327

Radial diffusion and chemical stability in the gravitational field: a discussion (Jean Verhoogen), 93
a reply (Hans Ramberg), 95
Rainfall effects. *A Florida landslide* (Richard H. Jordan), 418
Ramberg, Hans. *Albite-water system in the gravitational field: a comment*, 429
The facies classification of rocks: a clue to the origin of quartzo-feldspathic massifs and veins, 18
Radial diffusion and chemical stability in the gravitational field: a reply, 95
Rankama, Kalervo. *A note on the geochemistry of thallium*, 608
Rare gases, The abundance of, in the earth and in the universe (Hans E. Suess), 600
Ratio correlation in petrography, On (F. Chayes), 239
Reduction, Oxidation and, in geochemistry (Brian Mason), 62
Relief, tectonic, in Australia, a review of (C. A. Cotton), 280
Religion of the modern scientist (neo-materialism), The. By S. W. Tromp. Review by Kirtley F. Mather, 625
Replacement and the equating of volume and weight (John Ridge), 522
Researches, Geochemical, in Japan (Kazuo Yamasaki), 414

Richmond, Gerald M. *Stone nets, stone stripes, and soil stripes in the Wind River Mountains, Wyoming*, 143
Rickett, H. W., H. W. Camp, and C. A. Weatherby, (comps.). International rules of botanical nomenclature. Review by E. C. Olson, 442
Ridge, John. *Replacement and the equating of volume and weight*, 522
Riley, N. A. Review of: Sequence in layered rocks. By Robert R. Shrock, 99
Rock-fragment slopes caused by past frost action in the Jura Mountains (Ain), France (Sheldon Judson), 137
Rocks, The facies classification of: a clue to the origin of quartzo-feldspathic massifs and veins (Hans Ramberg), 18
of the Mid-Atlantic Ridge (S. J. Shand), 89
Oxygen in: a basis for petrographic calculations, and, The distribution of oxygen in the lithosphere: a discussion (Ivan Th. Rosenqvist), 420
Rosenqvist, Ivan Th. *The distribution of oxygen in the lithosphere, and, Oxygen in rocks: a basis for petrographic calcultaions: a discussion*, 420
comments on Barth's reply, 425
Roubault, M., and R. Perrin. *On the granite problem*, 357
Rove, Olaf N. Review of: Mining geology. By H. E. McKinstry, 625
Rubbles, The frost-moved, of Jumbo Dome and their significance in the Pleistocene chronology of Alaska (Clyde Wahrhaftig), 216

Sahama, Th. G., and D. R. Torgeson. *Some examples of the application of thermochemistry to petrology*, 255
Sands, California Tertiary reservoir, Cementation of some (Charles M. Gilbert), 1
Sandstone, Trivoli, of Williamson County, Illinois (Raymond Siever), 614
types: their abundance and cementing agents (Sefton L. Tallman), 582
Sandstones, classification of (Sefton L. Tallman), 583
Saône Basin, France, stratigraphy of (Hallam L. Movius, Jr.), 393
Saskatchewan. *Stylolites in pre-Cambrian quartzite* (C. E. B. Conybeare), 83
Satterly, J., comp. Geological map of the Province of Ontario: Map no. 1946-3. Review by F. J. Pettijohn, 321
